

BIM

Building Information Modeling

We are the BIM Experts, delivering proficient BIM services.

Our team of experienced BIM Managers, coordinators and modelers have vast experience of delivering custom tailored efficient BIM solution for every design and construction phase of project.

We have catered to every industry and hold vast experience in preparing BIM models, design reviews, BIM audit, design suggestions, preparing drawings and extracting quantities using BIM tools.

Through proper planning and coordination we recognize the importance of effective work process management and regularly communicate to achieve the best.

Tejy Inc. -

A Women Certified Minority Business
